

# QUALITY POLICY

**Paharpur Cooling Towers Ltd. is dedicated to delivering products and projects that comply with the needs and expectations of interested parties and design specifications.**

**The quality system is designed to comply with the requirements of the ISO 9001 Quality Management System to assure quality of all our products and services through continuous monitoring of processes at all stages from marketing to design, purchasing, manufacturing, installation and servicing.**

**Quality Objectives are established at departmental and field levels for continual improvement and are reviewed periodically to ensure effectiveness.**

**Necessary training is provided to work systematically, strive for excellence, maximise the efficiency of the organisation, give customers value for their money and promote on-time delivery of products and services.**

**Compliance with the provisions and objectives of the quality manual is mandatory for all employees of the company.**
